

# PROGRESS eLEARNING COMMUNITY

## WHY HAS PROGRESS DEVELOPED THIS PROGRAM?

Progress believes that our partners need to have access to the best training to keep your applications current and your business positioned for revenue growth and profitability. By providing a simple, easy-to-access subscription service, Progress delivers training to you and your staff to maximize your benefit from the technology and empower you to offer modern applications to your customers.

There is also the added benefit of the increased skills and morale for your staff as they will have access to essential training courses that can also be used as “quick reference” tools to improve their expertise and productivity during application projects. According to CSTI, “training results in a 30% increase in productivity per individual.” Imagine how that can impact your business.
