

PROGRESS[®] APAMA[®] ALGO EXECUTION WITH CQG

CQG, INC., AND PROGRESS APAMA PARTNER TO OFFER ALGO EXECUTION

CQG, provider of the industry's leading trade routing, graphics, and technical analysis tools for real-time and historical analysis, and Progress[®] Apama[®], the market-leading platform for algorithmic trading, have partnered to deliver sophisticated order execution algorithms to CQG users. With this new integrated offering, CQG users can now automatically execute their back-tested strategies, leveraging the power of the Apama algorithmic platform to capture alpha or minimize slippage. Rather than depend on a trader's ability to detect and act on opportunities captured in the CQG chart, Apama can automatically execute a trade decision, thus eliminating the inherent latency of human intervention.

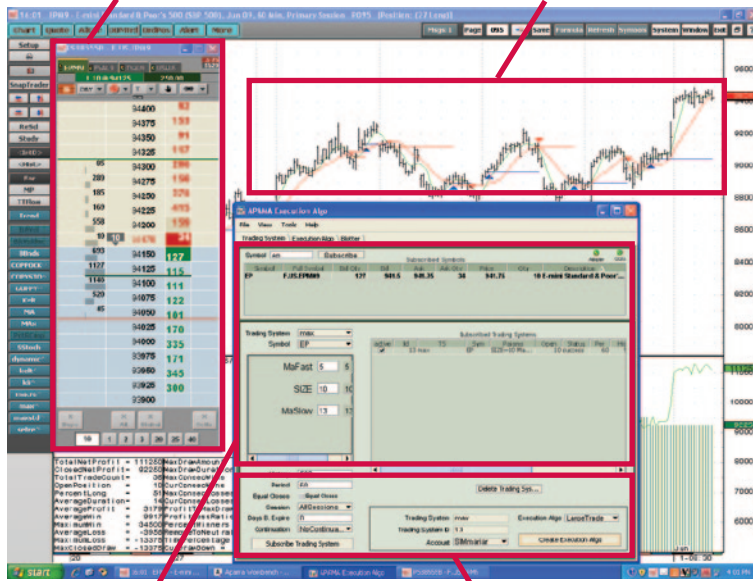

KEY FEATURES

- > Leverage new and pre-existing CQG conditions, studies, trade systems
- > Choose your chart type: constant volume bar, TradeFlow[™], or time-based charts; add your trade system; begin trading
- > Exploit the power and sophistication of Apama automatic order execution
- > Benefit from CQG's network of collocated, low-latency Hosted Exchange Gateways
- > Adjust execution strategies on the fly
- > Gain comprehensive end-to-end performance

Let the system trade for you; free your time for research.

Execute any trading system, study, or condition. Automatically.

Command and control your execution algorithms. Impose risk limits. Only get involved when you need to.

Execute multiple strategies on multiple instruments, simultaneously.

CQG

CQG, Inc. is the industry's highest-performing solution for integrated trade routing, global market data, and advanced technical analysis. CQG partners with more than thirty-five futures clearing merchants and provides Direct Market Access to more than thirty-five exchanges through its worldwide network of collocated CQG Hosted Exchange Gateways. For more information about CQG, please call 1-800-525-7082 or visit www.cqg.com.

PROGRESS SOFTWARE

Progress Software Corporation (NASDAQ: PRGS) is a global software company that enables enterprises to be operationally responsive to changing conditions and customer interactions as they occur. Our goal is to enable our customers to capitalize on new opportunities, drive greater efficiencies, and reduce risk. Progress offers a comprehensive portfolio of best-in-class infrastructure software spanning event-driven visibility and real-time response, open integration, data access and integration, and application development and management—all supporting on-premises and SaaS/cloud deployments. Progress maximizes the benefits of operational responsiveness while minimizing IT complexity and total cost of ownership.
