User Broadcast Image

- QLD Stamp Duties Updated
- Leads: Requirement templates can now be created to stop a particular item showing by default. Simply create your own version and leave the description blank.
- Task lists have been made much faster, but please note that multiple tasks cannot be completed at once due to a bug that we are investigating. Thanks.

Welcome

Thanks for visiting the Springettsbury Township Parks and Recreation website. We hope our **new website** is easier to use for course registration. As always, we welcome comments and suggestions.

About This Website

Register and pay online for classes, trips and events!

The site has both a public area where you can look at classes, leagues and events we are planning, and a private area where you will need to login. **Registration is free** and being a registered member of the Springettsbury Township Parks and Recreation website enables you to register and pay online for classes, trips and events.

[Register](#) to create your account. Then you can add family members to your account and begin purchasing classes, trips and events.

Who is it for?

Business Users can:

- Build powerful data-driven apps w/out coding
- Build integrations b/w Rollbase apps w/out coding
- Work w/ developers to ensure the right solution is built

Developers can go much further with:

- JavaScript on client-side and server-side
- Rollbase APIs: REST, SOAP, AJAX, SQL, JDBC
- Custom JSPs and Java-based business logic
- Integrate 3rd party libraries and products

Rollbase In Action

A Complete Guide to Developing and Delivering Custom SaaS Applications with Rollbase

550+ pages of documentation

Available on Amazon

ISBN-10: 1257781219

ISBN-13: 978-1257781218

User Interface and Data Model

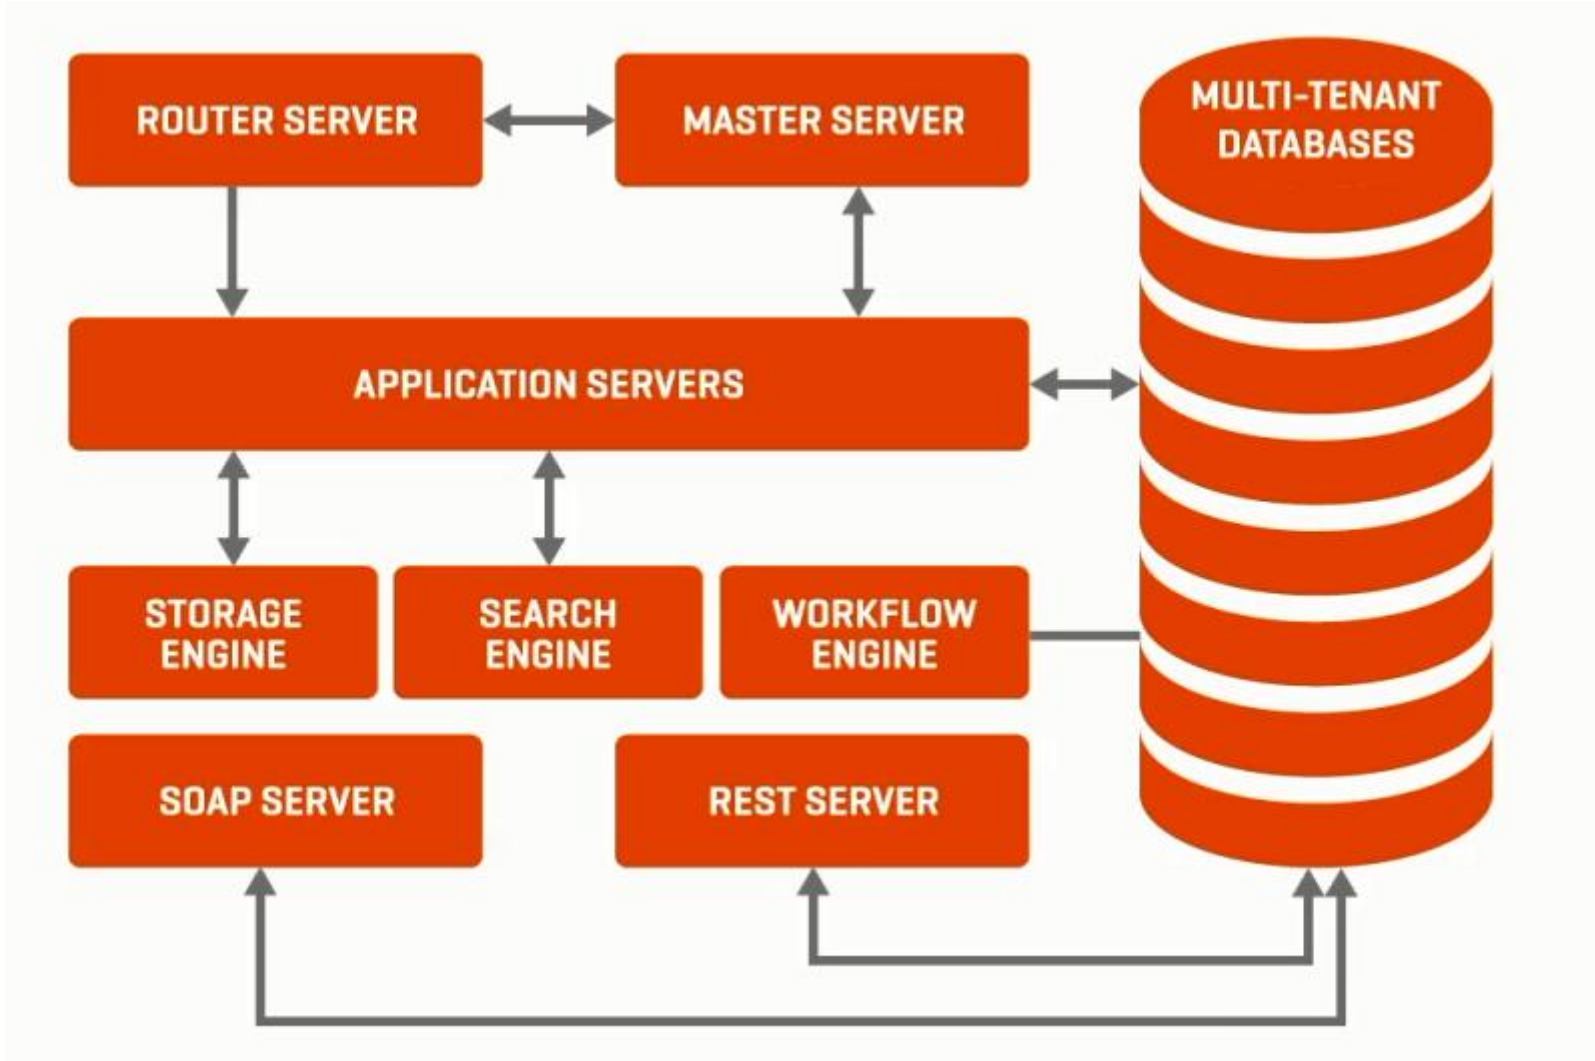

Workflow and Business Logic

Permissions and Access Control

Web APIs and Integration: REST, SOAP, AJAX, D2C, OpenEdge, etc.

For ISVs: Publishing, Versioning, Tenant Management, etc

Multitenant Model-driven Development Framework
