

# LEAVE NO DATA BEHIND

In Hybrid Data Landscapes

These days there's data floating around everywhere. You practically need elite athlete skills to clear the hurdles blocking efficient connectivity to on-premises and firewall-protected data sources and to ever expanding universe of cloud data sources. Now, Progress DataDirect will completely change the way cloud applications access data.

## Light-weight Data Access Service

### Deploy a Complete Data Access Service Within Your Data Center

This light weight connector is designed to run within your data center to provide secure access to data residing on-premises, behind a firewall or in other clouds.

- **Real-Time Access**

Fast and easy access to data over standard REST and SQL interfaces so your users are more productive and your business more agile.

- **Firewall Friendly Connectivity**

Securely access data behind any firewall, without requiring SSH tunnels, reverse proxies or any changes to the firewall. This allows public or private cloud applications to access on-premises data encrypted over SSL/TLS.

- **Proven Technology**

This solution is based on proven and award winning technology that has been deployed in the DataDirect Cloud for more than two years.

- **One Connection, Unlimited Data Sources**

Develop the data access layer for your external data strategy against a single industry standard API-ODBC, JDBC, REST or OData-to access data across Cloud, RDBMS, Big Data and NoSQL.

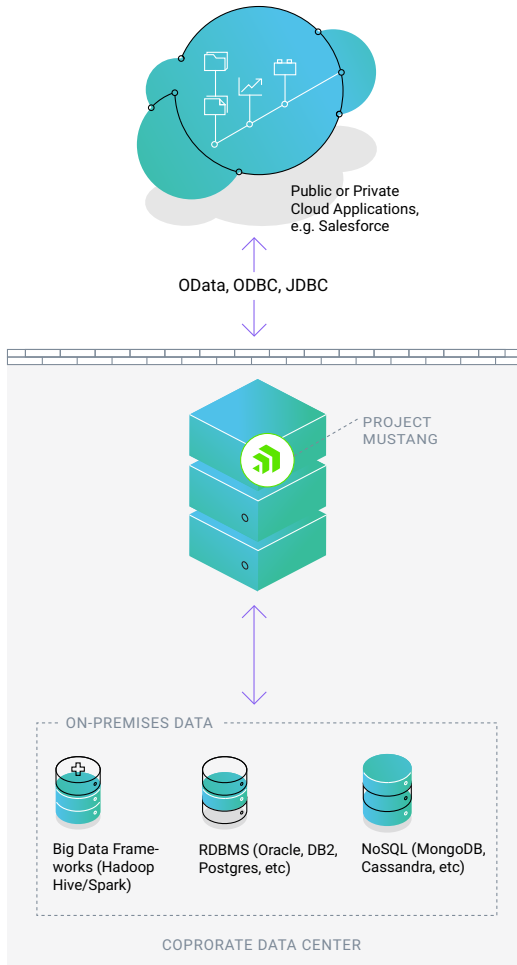

## Up and Running Fast

You can be up and running in 30 minutes. Use your existing skills and concepts. No training required.

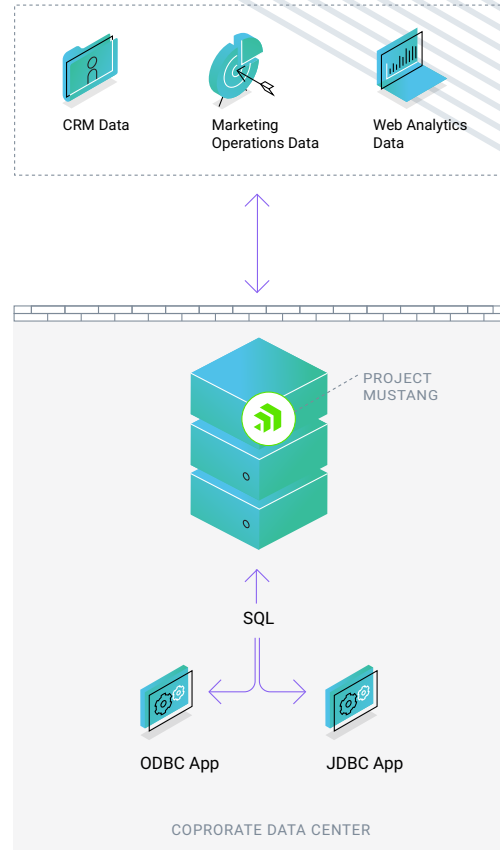

## How is this different from other cloud integration tools?

This provides real-time, direct data connectivity using industry standard interfaces across SQL and REST.

## Hybrid Connectivity

## Single API to Cloud Data Sources

## Start Your DataDirect "Project Mustang" Preview

- Get a firsthand look at the latest innovation in cloud connectivity
- Gain exclusive access to our product teams
- Steer the product roadmap toward your technology

## About Progress

Progress (NASDAQ: PRGS) is a global leader in application development, empowering the digital transformation organizations need to create and sustain engaging user experiences in today's evolving marketplace. With offerings spanning web, mobile and data for on-premise and cloud environments, Progress powers startups and industry titans worldwide, promoting success one customer at a time.
