

# Progress MOVEit Managed File Transfer

## Create a more secure digital experience.

For organizations that rely on more secure, compliance-driven managed file transfer (MFT), Progress<sup>®</sup> MOVEit<sup>®</sup> is a leading MFT solution available in the cloud, on-premises or as a service. MOVEit is easy to deploy, maintain and scale and offers strong encryption and visibility over file transfer activity.

Pre-defined and customizable reports and tamper-evident logging of all data interactions, including files, events, people, policies and processes.

MOVEit helps you comply with PCI, HIPAA, CCPA/CPRA, GDPR, SOC 2 type 2, ISO 27001, SOX, FIPS and other leading data security regulations.

Reduce human error and scale more secure file transfer activity by automating tasks and workflows without scripting.

Choose the Managed File Transfer Software voted #1 among all leading MFT vendors by G2 Software Reviews\*.

# More Secure File Sharing That Is Easy to Deploy, Use, Maintain and Automate

MOVEit fits your organization whether in the cloud, on-premises or in a hybrid environment.

## MOVEit Transfer

A leading managed file transfer application for Microsoft Windows Server. Can be deployed on- premises or in the Azure Cloud.

## MOVEit Cloud

MOVEit Transfer hosted by Progress, as a service in the Azure Cloud. All the benefits of managed file transfer without the heavy lifting.

## MOVEit Automation

Works with MOVEit Cloud, MOVEit Transfer, hybrid cloud endpoints (AWS S3, Azure Blob, SharePoint, etc.) or any FTP system to provide advanced workflow automation capabilities without the need for scripting.

## MOVEit Add-In for Microsoft Outlook

Provides an exceptional user experience that makes sharing sensitive files more intuitive and hassle-free. Deploys centrally so there is nothing for users to install or maintain.
