Course title

Progress OpenEdge Multi-Tenant Database Administration

Course duration

Equivalent to 24 hours of instructor-led training

Audience

This course is for Progress OpenEdge multi-tenant database administrators.

Description

This course teaches Progress OpenEdge multi-tenant database administration tasks. Initially, you get an overview of OpenEdge multi-tenancy. Then, you learn to perform the following tasks:

- Enable multi-tenancy for a database.
- Load data definitions of shared and multi-tenant database objects into a multi-tenant database.
- Create a tenant group and load group contents into a tenant group table.
- Create shared and multi-tenant sequences.
- Use the ABL API to create tenants, domains, users, and tenant groups.
- Recover tenant data.
- Dump data from and load data into a multi-tenant database.
- Maintain multi-tenant indexes.
- Manage multi-tenant tables.
- Manage a multi-tenant database.

The materials that you receive with this course include a Course Guide, which includes hands-on lab exercises and step-by-step solutions, and a CD with example code and exercise files with solutions.

This course is also available online with a subscription to the Progress Education Community.

Version compatibility

This course is compatible with Progress OpenEdge 11.5.1.
