

**Course title**

*Introduction to Progress OpenEdge Administration*

---

**Course duration**

Equivalent to 1 hour of instructor-led training

---

**Audience**

This course is for OpenEdge administrators.

---

**Description**

In this course, you will be introduced to the features and components of the Progress® OpenEdge® RDBMS database, and the two OpenEdge application servers (PAS for OpenEdge and the classic Application Server). In addition, you will learn about the tools you can use to manage and monitor the databases and application servers. The materials that you receive with this course include a Course Guide, which includes hands-on lab exercises and step-by-step solutions, and a CD with example code and exercise files with solutions.

This course is also available online with a subscription to the [Progress Education Community](#).

---

**Version compatibility**

This course is compatible with Progress OpenEdge 11.7.

---

**Role-based learning path(s)**

This course is a part of the following role-based learning path(s):

- OpenEdge 11 Administrator
- 

**What you will learn**

After taking this course, you should be able to:

- Describe the OpenEdge RDBMS, its components, and administration tools.
  - Describe PAS for OpenEdge, its components, and administration tools.
  - Describe the classic AppServer, its components, and administration tools.
- 

**Prerequisites**

Students should already have working knowledge of database, server, and security concepts.
