

# EDUCATION SERVICES

Targeted Training Delivered According to Your Needs

## KNOWLEDGE THAT EXTENDS CAPABILITIES

**Progress Education** offers training for key roles, at every stage in the learning journey. **Educate** yourself and equip your application development team with the product knowledge you need to succeed – and achieve. **Accelerate** your implementation. **Prepare** your people for change. **Gain insights** into your business through Progress technology.

## TRAINING TO MEET YOUR NEEDS

**Progress Education is organized by Role-Based Learning Paths.** Select the Learning Path for your specific role - Developer or Administrator. Then choose from Beginner to Advanced courses to ensure your training aligns with your function.

- ▶ Bedford, MA Training Center
- ▶ Redwood City, CA Training Center
- ▶ Benelux Training Centers
- ▶ Cologne, Germany Training Center
- ▶ Paris, France Training Center

“Our goal is to teach students how to do their job effectively and efficiently, rather than to strictly focus on the features and benefits of our products.”

**6** GLOBAL TRAINING LOCATIONS

**25** YEARS OF EXPERIENCE

THOUSANDS OF QUALIFIED STUDENTS TRAINED

## ROLE-BASED LEARNING PATHS INCLUDE:

- ▶ [OpenEdge Administrator](#): Includes Paths for Database, App Server, Management and Business Process Management [BPM]
- ▶ [OpenEdge Developer](#): Includes core training for ABL and BPM
- ▶ [Corticon Developer](#): Paths include Business Analyst and Integration Developer

## LEARNING PREFERENCES

Each title in a learning Path is available as Instructor-led Training, Online Training, or Customized Training to accommodate your schedule and how you learn. Progress Education courses receive extensive input from our Product Engineering, Professional Services, and Technical Support teams to ensure that you and your team receive the most relevant information.

After completing training, you and your team will have the practical, hands-on knowledge you need to effectively use Progress products to solve all of your critical business challenges.

## LEARNING OPTIONS INCLUDE:

- ▶ [Instructor-led Training \(ILT\)](#) offers in-person instruction taught by Progress experts. This popular and comprehensive learning format provides students with hands-on experience to match their unique role requirements.

Whether held in a public class at one of our state-of-the-art learning facilities—in convenient worldwide locations—or in a private learning environment held at your organization's location, Progress Education courses provide an effective, comfortable and dynamic learning environment through the use of:

- > High-quality and relevant curriculum
- > Experienced instructors
- > Real-life application simulation
- > Active instructor shadowing
- > Step-by-step, comprehensive lab activities

- ▶ [Online Training](#) offered through the Progress Education Community [PEC], an online learning community providing a full suite of training courses for Progress Software users.

The PEC is a subscription-based service that offers each subscriber 12 months of unlimited online access to a Catalog of training aligned with your job role - **all for one low annual fee**. Each Catalog is comprised of eLearning courses and assessment exams, organized by Role-based Learning Paths. Enroll in (and pay for) just the training that is right for your role.

[Enroll in the Progress Education Community \[PEC\]](#)

- ▶ [Onsite Training](#) is developed by expert Progress Software instructors and the content, agenda, and schedule is tailored to your requirements. Onsite Training can be conducted at a Progress training location or delivered in the privacy of your organization.
