

Course title

Migrate to Progress Application Server for OpenEdge

Duration

Equivalent to 1.5 hours of learning

Audience

Progress Application Server for OpenEdge Administrators

Description

In the Migrate to Progress Application Server for OpenEdge course, you learn how to migrate your existing OpenEdge applications from the classic AppServer and the WebSpeed Transaction Server to the modern application deployment platform that is called PAS for OpenEdge.

The materials that you receive with this course include a Course Guide, which includes hands-on exercises and step-by-step solutions, and example code and exercise files with solutions.

This course is also available online with a subscription to the [Progress Education Community](#).

Version compatibility

This course is compatible with OpenEdge 12.2.

What you will learn

After taking this course, you should be able to:

- Migrate your classic AppServer applications to a PAS for OpenEdge instance.
 - Migrate your WebSpeed applications to a PAS for OpenEdge instance.
-

Prerequisites

You should already be familiar with:

- Classic AppServer
 - Progress Application Server (PAS) for OpenEdge
-
