

MOA Builds Purpose-Driven ERP on Progress OpenEdge for New Life Centers

AT A GLANCE

MOA leverages the Progress® OpenEdge® platform to deliver its flagship ERP solution, Kechie, which powers a secure, cloud-based B2B portal that helps New Life Centers manage donations and support over 200 partner nonprofits. The platform's reliability and ease of use help MOA and New Life expand their community impact.

Challenge

New Life Centers needed to organize and distribute large donation volumes for hundreds of partner nonprofits. MOA's OpenEdge-powered ERP solved operational inefficiencies and improved community service delivery.

"Our entire product line runs on OpenEdge because it delivers exactly what we need—the reliability, security and scalability our platform demands."

Mehrdad Komeili
Founder and President, My Office Apps

Solution

Built a B2B portal for New Life's partner organizations using the OpenEdge platform.

Cloud-based system organizes warehouse inventory by category and location.

Enables secure logins and shopping-cart style ordering for donations.

Results

Over 200 nonprofits now place and track orders online.

Faster distribution and less waste means more people helped.

99.9% uptime helps New Life focus on serving families, not system outages.

Discover how the OpenEdge platform can help your organization run smarter and serve more communities in need.
