

Course title

Create and Manage Content in Progress Sitefinity

Duration

Equivalent to 8 hours of learning

Audience

Sitefinity Content Editors

Description

The *Create and Manage Content in Progress Sitefinity* course introduces the Progress Sitefinity content management system and demonstrates how to create and publish content such as blogs, news items, and online forms, create page templates and pages, work with dynamic content modules, and manage content through versioning and classification.

The materials that you receive with this course include a Course Guide and an Exercise Guide, which includes hands-on exercises and solutions.

This course is also available online with a subscription to the [Progress Education Community](#).

Version compatibility

This course is compatible with Progress Sitefinity 13.2.

What you will learn

After taking this course, you should be able to:

- Describe the key features of Sitefinity.
 - Create pages and page templates.
 - Create and edit content using built-in content modules.
 - Create dynamic content modules.
 - Manage content using revision history and classification.
-
